## ■ Quad Prime Camera Doorway Dolly Setup

### Pneumatic Wheels Assembly

- Use a 4mm Allen key to loosen and remove the CSK bolt from the wheel axle.

- Attach the pneumatic wheel to the axle and re-insert the CSK bolt.

**Feature:** The 12-inch air-filled pneumatic wheels excel on sand and uneven terrain, ensuring smooth movement in any setting.

- Next, Tighten the bolt securely using the 4mm Allen key.
- The wheel is now properly attached.
- Repeat the same process to attach the remaining wheels.

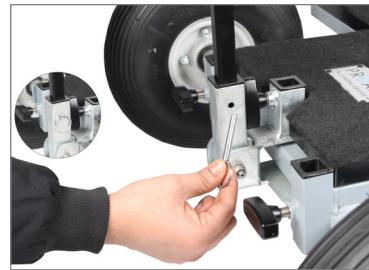

## Steering Handle Mounting

- Remove the locking pin from the rear wheel steering.
- Insert the steering handle into its designated slot.

- Reinsert the locking pin and ensure it is securely locked to hold the handle in place.
- The steering handle is now properly attached.

**Feature:** The steering bar tilts down 270° for added convenience for the dolly grip.

### Steerable from Either End

90° Tilt Steering Bar for Dual-End Control

**NOTE:** The 90° tilt steering bar can be easily inserted into either end of the dolly, providing complete control over the front wheels' left-to-right movement for precise directional steering.

## Precise, Controlled Movements

### Push Bar Handle

## Extendable Rear Wheels

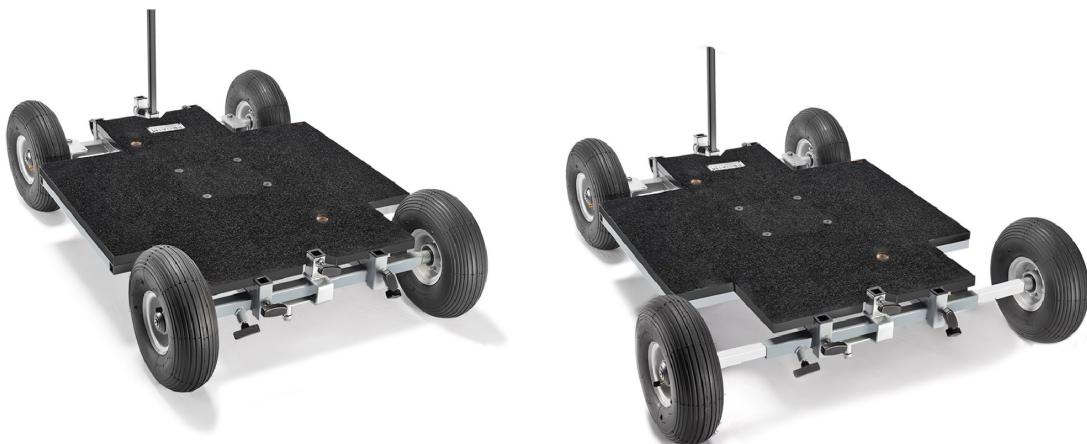

- Loosen the bottom knobs on both sides of the dolly and pull the rear wheels outward to extend them.
- once extended to the desired width, securely re-tighten the knobs.

**Feature:** The rear wheels can be extended outward by loosening a knob for enhanced stability.

## Extendable Rear Wheels

### Auto-Lock Stability

## Handle Mounting

- Loosen The knobs on both handle slots located on each side of the dolly.
- Insert the handle into the designated slots.

- Once inserted, securely re-tighten the knobs to firmly lock the handle in place.

## Silver Rod Mounting

- Loosen the knob of the handle and slide the silver rod into the designated holes on the handle.
- Once the rod is in position, securely re-tighten the knob to lock it in place.

## Handles Foam Mounting

- Insert the foam grips onto both ends of the silver rod.
- Ensure they are securely fitted for a comfortable and firm grip.

## Handles Mounting

- Loosen the knob from the rear wheel steering.
- Insert the steering handle into the adapter on the attached handle.

- Position the steering handle securely in place,
- Align the holes of the steering handle and knob, then re-insert and tighten the knob.

**NOTE:** Handles can be installed on either side of the dolly as needed.

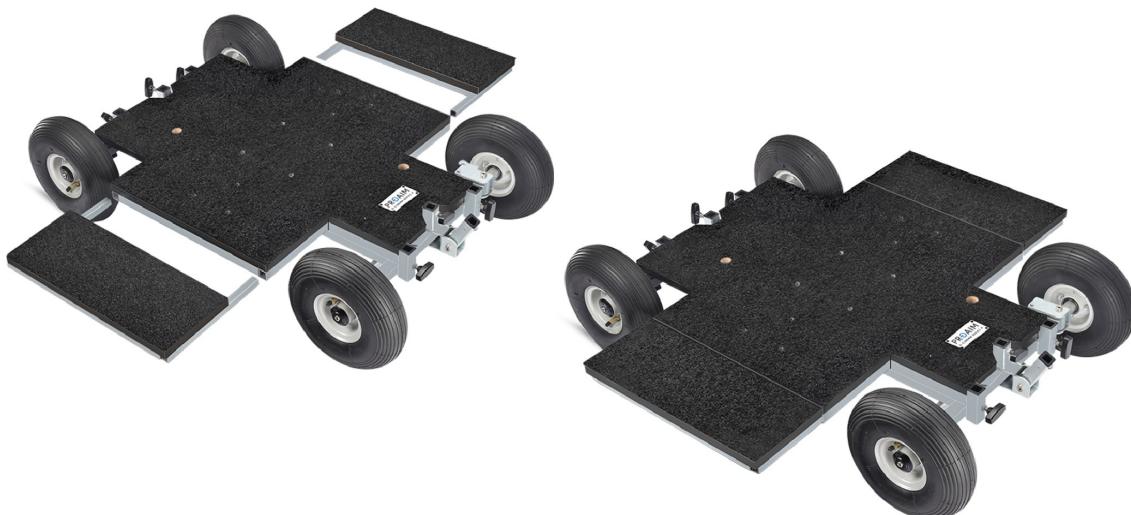

## Side Boards Mounting

- Insert the side boards into the designated slots on the dolly for extended platform space.

**Feature:** With included sideboards, you can expand the dolly's platform width by up to 16", offering increased space for additional crew, equipment, or wider tripod setups.

### Extendable Wooden Platform Width Up To 16" with Sideboards

## Euro Mounting

- Place the Euro plate onto the dolly platform.
- Insert the Allen Bolts, aligning them with the holes on the plate.

- Tighten all bolts securely using a 6mm Allen Key.

- The Euro plate is now firmly mounted

**Feature:** The Euro/Elemac mounts onto the platform, allowing you to attach a variety of Elemac accessories.

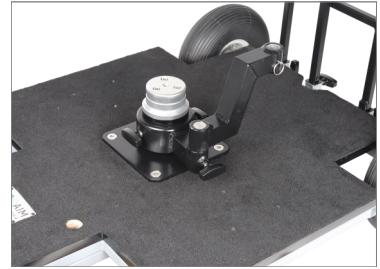

## Seat Arm Mounting

- Loosen the knob of the Euro and insert the seat arm into the mounting slot.

- Once inserted, securely re-tighten the knob.

## Seat Rod Mounting

- Insert the seat rod into the seat arm and secure it by inserting the locking pin.

- The seat rod is securely inserted and locked in place.

## Seat Mounting

- Loosen the knob on the seat and mount it onto the seat arm.

- Once the seat is in place, re-tighten the knob to secure it.

## Seat Height Adjustment

## Seat Rotation

- Loosen both knobs of the Euro mount to rotate the seat.

- Then Loosen the Euro knob near the seat arm mount for further adjustment.

**Feature:** The dolly includes a rotatable seat for added operator comfort during shooting.

## Comfort For Operators

### 360° Rotable Seat

## Bazooka Mounting

- Mount the Bazooka (**Not included**) onto the Euro and tighten the top knob on the lever inside the Bazooka.

- Secure the Bazooka in place by locking the lever.
- The Bazooka is now securely mounted on the dolly.

## Height Riser Mounting

- Mount the Height Riser (**Not Included**) onto the bazooka.
- Secure the riser by tightening the ratchet knob firmly.

## Fluid Head Mounting

- Mount the fluid head (**Not Included**) onto the height riser and secure it by inserting the locking knob from the bottom.

- Once the fluid head is securely mounted, slide the camera into position, as shown in the image.

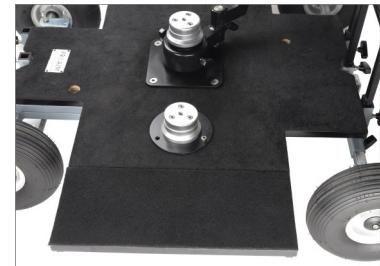

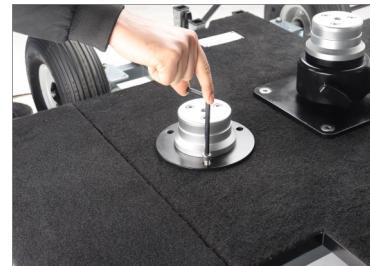

## Euro Mounting (Optional)

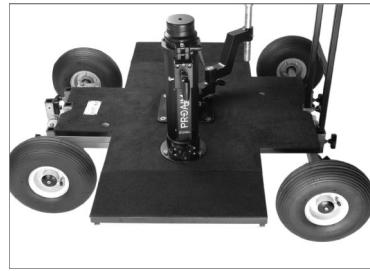

- Mount The Euro (Not Included) on the Dolly and insert the bolts (Not Included).

- Secure the mount by tightening the bolts using a 6mm Allen Key.

- Once mounted, you can conveniently attach a Bazooka (Not included) and a camera (Not Included) as needed.

### Wide Gear Compatibility Euro/Elemac Adapter
